

ASPT, ARUF, AWUF, AND ACNF  
ENERGY-EFFICIENT AIR HANDLERS  
AND MBR BLOWER MOTOR

Thank goodness  
for Goodman.®

At Goodman, we believe in American dependability. Units are designed, engineered and assembled in the U.S.A.

Independent, dependable, courteous, prompt, honest, highly-skilled and respectful of you and your home. That's why all the time homeowners say,

"These guys are good – really good."

## Why does Goodman® have such a large fan base?

Many of your neighbors may have discovered that a reliable and energy-efficient home comfort system doesn't have to cost a fortune. Goodman brand whole-house systems feature many of the latest and greatest money-saving technology benefits that we can offer. They are designed and engineered to run quietly and pretty much worry-free.

Goodman® is one of the biggest names in home heating, cooling and energy-efficient home comfort. That's because Goodman lives up to its name in a big way, with time-tested energy-efficient technology, highly-durable materials and spot-on manufacturing. So, no matter where you live or whether your home is small or large, Goodman probably has a solution to help keep your home comfortable.

### Using Goodman is a breeze. Love is in the air.

The best indoor comfort system is the kind you don't have to think or worry about. It comes on the moment you need it and then runs quietly and efficiently year after year. Goodman air handlers and coils have features designed to provide outstanding performance. We use advanced techniques and materials so you know the cozy, even temperature you feel in every corner of your home is an energy-efficient trend you'll love for many years.

### Home comfort that won't blow your budget.

Our complete line of air handlers and coils are priced reasonably and affordably from your local independent dealer. And that's only the beginning. We want you to smile every time you open your utility bill, so we design into our units proven efficient technology.

### Taking pride in our company heritage.

Goodman brand heating and cooling systems are designed to provide refreshingly affordable and energy-efficient indoor comfort solutions using advanced technology. But the company ultimately adheres to some old-fashioned values, too. Goodman believes in the integrity of the American worker. That's why Goodman brand heating and cooling systems are designed, engineered and assembled in the United States.

Experience reliable indoor comfort for everyone  
in your home year after year after year.

## A LOT GOES INTO EVERY GOODMAN® BRAND AIR HANDLER

**Goodman ASPT, ARUF, AWUF AND ACNF Air Handlers with All-Aluminum evaporator coils simply work the way they're supposed to, making each one a thing of beauty.**

**All-Aluminum Evaporator Coil (ASPT, ARUF, AWUF and ACNF models)** – Designed for efficient heat transfer and durable performance and resists potential corrosion.

**Multi-Speed Motor (AWUF and ACNF models)** – For energy-efficient operation helps to lower utility bills compared to single speed models.

**Field-Installed Electric Heat** – From 3-25 kW for emergency heat, if ever needed.

**Smartframe™ Substructure (ASPT and ARUF models)** – Intelligent structural design both improves the Goodman brand air handler's lateral strength and affords a sturdy mounting framework for internal components. It also secures the foil-faced insulation covering the entire blower casing that can reduce operating noise. All of which helps to increase durability and reliability of unit.

### The art of precision – the MBR Blower Motor

**Modular Configurations with Upflow, Counterflow and Horizontal Positions** – To support easy installation of unit regardless of your house type.

**Field-Installed Heat Strips** – From 3-20 kW for emergency heating, if ever needed.

Model	Capacity	Blower Motor Type	All-Aluminum Evaporator Coil	Factory-Mounted Internal TXV	R-410 Chlorine-Free Refrigerant Compatible	R-22 Refrigerant Compatible
ASPT	1.5 - 5.0-Tons	Fixed-Speed ECM	•	•	•	
ARUF	1.5 - 5.0-Tons	Multi-Speed	•		•	•
MBR	1.5 - 5.0-Tons	Multi-Speed				
AWUF	1.5 - 3.0-Tons	Multi-Speed	•		•	•
ACNF	1.5 - 2.5-Tons	Multi-Speed	•		•	•

### SINGLE METAL SOLUTION

The All-Aluminum evaporator coil in our ASPT, ARUF, AWUF and ACNF air handlers is constructed from aluminum tubing, fins and end plates giving you a single metal solution for outstanding, time-tested, heat transfer performance properties. If you're looking for an evaporator coil that offers enhanced durability, coupled with enhanced performance (as tested in our labs), this is the product for you. Models ASPT, ARUF, AWUF and ACNF contain All-Aluminum evaporator coils.

### INDOOR HUMIDITY

A warm summer day is fine as long as humidity doesn't cause you to break into a sweat when walking from your house to the car. The same applies indoors. You're more comfortable inside your home when the moisture level is lower – just as you are more comfortable outside when it's not as humid.

Goodman systems are designed to improve air comfort by lowering indoor moisture levels.

**Thank goodness for Goodman®**

## COUNT ON OUTSTANDING LIMITED WARRANTY\* PROTECTION

---

**10** PARTS  
YEAR LIMITED  
WARRANTY\*

\* Complete warranty details available from your local dealer or at [www.goodmanmfg.com](http://www.goodmanmfg.com). To receive the 10-Year Parts Limited Warranty, online registration must be completed within 60 days of installation. Online registration is not required in California or Quebec.

---

When your current air handler or blower motor breaks, it's good to know that your local, independent Goodman® brand contractor has financing options available to help defray what might be considered an emergency purchase for your home.

---

ONCE YOU CHOOSE THE GOODMAN® BRAND,
