There are some things you can always depend on...

## Gas Fired Hot Water Boiler

### Up to 83.9% AFUE

Energy saving features include the electronic ignition system and motorized vent damper to reduce your heating costs.

### Exceptional Heat Exchanger Design

Features a dependable cast iron heat exchanger with cast iron push nipple connections. The sections and push nipples expand at the same rate when heated. By using similar materials instead of less expensive gaskets or steel push nipples, the boiler maintains a water tight seal.

### Hydrolevel Operating Control

- Features digital display and diagnostics
- Adjusts the water temperature based on your heating system demand which further reduces your heating costs
- Built-in low water cut-off (LWCO) to protect the boiler from potentially dangerous low water conditions

### Integral Draft Diverter

- Features factory installed integrated draft hood diverter, which reduces the risk of improper draft hood installation and unsafe CO levels
- Low profile reduces installation height by up to 30" as compared to models with external draft diverter hood

### Limited Lifetime Heat Exchanger Warranty

Built by American craftsmen since 1928
